Repair and service of all main spindles with ball bearings

Belt Driven Spindles
Automatic Tool Change Spindles
High Frequency Spindles
Milling-/ Grinding Main Spindles
Grinding Spindles
Wood Working Spindles
Lathe Machine Spindles

We repair spindles of machine manufacturers

Mazak, Deckel Maho, Mitsubishi, Hermle, Voumard, Jung, Mikron, Vollmer, Huron, Forest, Chiron, Rödgers, HURCO, Weeke, HOMAG, IMA and more other brands alike.

We repair spindles of spindle brands like

Voumard, Fischer, Weisser, Omlat, GMN, Fortuna, Renaud, Precise, KaVo, Perske, Jäger, Ibag, Heller, Hauser, Gamfior, Faemat, FAG, Bryant, Colombo, Deuschle, Blohm, SKF, Weiss, Kessler, Junker, UVA, TDM, HSD, Step-Tec, UKF, DMG, IMT, Jung and others alike.

After the disassembly you will receive a cost estimation with the written failure cause for the cost agreement.

In case of the repair we exchange broken parts and re-finish weary parts.

Furthermore, all rotating parts are undergoing a fine balancing according to ISO 1940.

After complete assembly a test run of several hours is done. There are checked the results of the repair such as e.g. radial and axial run-out, bearing temperature, motor temperature, vibration values, isolation results of the motor.

The document of all measured results will be handed out to you.
